

# **TURTL**

## **Use Case Specification**

Submitted to:

Asst. Prof. Ma. Rowena C. Solamo  
Faculty Member  
Department of Computer Science  
College of Engineering  
University of the Philippines, Diliman

Submitted by:  
Joan Nicole Balugay  
Ram Mangaoang  
Brian Sy

In partial fulfillment of academic requirements  
for the course  
CS 191 Software Engineering I  
of the  
1<sup>st</sup> Semester, AY 2017-2018

**Unique Reference:**

The documents are stored in the <https://github.com/brianpesy/turtlios>.  
<https://github.com/brianpesy/turtlios/tree/master/02%20-%20Requirements%20Engineering>

**Document Purpose:**

This document is for further explaining different functionalities within the program to a more specific and clear extent while also maintaining readability as well.

**Target Audience:**

Businesses, clients, and those people who are interested in the whole project and how exactly we are going to go about designing the whole project are within the scope of our target audience.
